Refrigerator Value

Consists in what it does, not in how it looks. The Northern Light Refrigerator keeps whatever you put into it, whether it is food or ice, and it does it economically with very little care or trouble.

We guarantee the linings never to break or crack—if they do you can have your money back. Ask to see our Refrigerators, in the Furniture Department.

Lawn Mowers

The old way of using cows for lawn mowers is a thing of the past, not owing to the lack of cows, but to the low cost of Lawn Mowers, has had much to do with it. We have them at prices that place them within the reach of all.

We have the Ball Bearing Ogden, a 14-inch cut, that runs as light again as the ordinary 14-inch mower. There is nothing on earth made that will beat it.
